Curious by nature, I'm a passionate Full Stack Web developer. I like to build high quality Web applications to solve different problems.

Open source contributor in my free time. Among other things, I joined Rails organization on Github. I'm also a [speaker](#), [writer](#), [podcaster](#) and co-organizer of the [Lyon.rb](#) meetup.

#### Skills

- ✓ Ruby on Rails / RSpec
- ✓ PostgreSQL
- ✓ Git / GitHub / GitLab
- ✓ Ansible / Capistrano / Gitlab CI / Github CI
- ✓ Docker / macOS / Linux
- ✓ Webpack / Yarn
- ✓ Vue JS / Stimulus
- ✓ Bootstrap / TailwindCSS

#### Lead Developer & DevOps / Studio HB

September 2017 to today - Lyon & Remote

I work with Ruby on Rails, JS View, Stimulus, Tailwind CSS, PostgreSQL and Ansible to build MVPs and showcase sites. I deploy, with GitLab CI and Capistrano, applications tested with RSpec and Jest.

#### Full Stack developer / Ochelys

Octobre 2015 to September 2017 - Lyon, France

Back and Front-end developer on MVPs and showcase sites with Laravel, Ruby On Rails and Bootstrap.

#### Master of Engineering / Institut G4

September 2015 to June 2018 - Lyon, France

Engineering school specialized in Web development and management.

#### Associate's Degree of Engineering / Computer Science

September 2013 to June 2015 - Lyon, France / Shawinigan, Canada

- ✓ Creator of SaaS application [timecop-app.com](https://timecop-app.com)
- ✓ Creator and maintainer of [stimulus-components](#)
- ✓ Creator of multiple [Ruby gems](#) and [JavaScript packages](#)
- ✓ Creator of [laravel-blog](#)
